

Perforated Metals

AMICO Perforated Metals

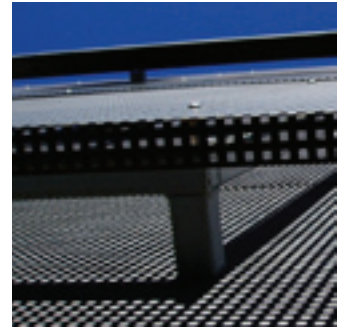

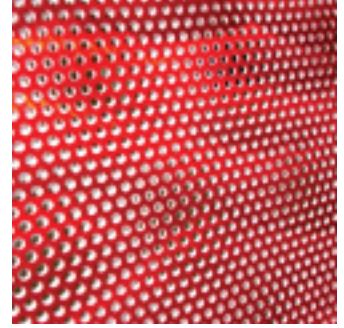

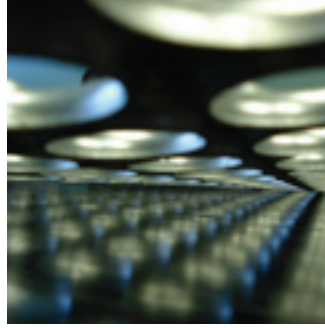

AMICO, North America's largest manufacturer of high quality expanded metal mesh, is pleased to announce that we have acquired the assets of Erdle Perforating which enlarges our product mix to include a full line of perforated metal. Erdle has facilities in Rochester, New York and Pineville, North Carolina and has been servicing the perforated market for over 140 years.

With a well-established presence in the North American market, AMICO offers competitively priced quality products through coast to coast distribution with a knowledgeable sales staff. With the addition of Erdle's capabilities and extensive inventory of tooling, we are now able to offer a wide range of hole patterns and designs.

Our perforated metals have been used on many high-profile projects which include airports, concert halls, sporting venues and shopping malls.

We are dedicated to matching the aesthetics and functional tolerances you require, in a timely cost efficient manner.

Instructions for Ordering

1. Specify quantity and dimensions of sheets, pieces, or panels.
2. Indicate gauge and kind of material. If in doubt, specify thickness in decimals.
3. Size, shape, arrangement, and center of holes. If slotted are selected, specify whether they are to run lengthwise or crosswise of the sheets.
4. Specify widths of all margins.
5. If mounting holes are to be used, give size of holes, shape of holes and locations on margin.
6. Special shipping instructions, if any. Unless otherwise informed, we normally ship by motor freight. If material is to be shipped by rail, please give specific shipping instructions.
7. When custom panels, screens, or other non-standard items are required, send exact specifications or contact us.
8. For clarification, submit a pdf or file.
