

HYDRODRY AMIFLOW DRAIN SCREED

FOR STUCCO AND PLASTER INSTALLATIONS

HYDRODRY DRAIN SCREED is a vinyl HI-PERFORMANCE trim that provides a straight, true, continuous surface that terminates the base of a stucco wall. DRAIN SCREED integrates many features to simplify in-stallation providing guides to help installers maintain the proper stucco thickness. The key feature is the vented moisture trough that provides the drainage path for water in the wall cavity. The Drain Screed features a vented drainage trough, which allows Rain Screen to properly terminate, ensuring moisture can drain out of the bottom of the wall. As a replacement for the traditional foundation weep screed, the HYDRODRY Drain Screed also provides a provide a straight, true, continuous surface that will drain and ventilate the wall cavity.

This trim is required by most building codes in the United States. Check with local building codes for the proper clearance for the weep screed placement above grade.

All butt joints, intersections, and ends should be joined, embedded and sealed in a quality sealant compatible with exterior paint finish.

Product Submittal	Product Number	Color
	HDADSV35078010	White
	HDADSV35078010G	Gray
	HDADSV35078010T	Tan
Manufactured with a 3½" Nailing Flange as Required by IBC 2510, 2511		
7/8" Ground		
Standard Length is 10-Feet		

FINISH

The finish on all AMICO vinyl stucco accessories is compatible with standard lathing and paint finishes.

COLORS

Standard color is white. This profile can be specified and ordered with the exposed area in tan or gray.

REFERENCES

PVC complies with ASTM D4316 and ASTM D1784
